Safety

For safety, read and follow all the information carefully before using the blender.

- ⚠ Be careful of the blade and never put your hand inside the blender.
- ⚠ Do not run the blender for more than 45 seconds to reduce the risk of overheating.
- ⚠ Follow the cleaning instructions for the blender after each use to reduce the risk of mold.

Parts

Setting Up the Blender

1. After unwrapping, wash and dry all the parts except the base.
2. Place the base on a stable surface and plug it in.
3. Place the holder onto the base.
4. Insert the blade into the holder.
5. Place the rubber seal on top of the blade.
6. Attach the glass jar by twisting.

Cleaning the Blender

Clean the blender immediately after each use to reduce the risk of cross-contamination and mold.

You need:

- dish soap
- hot water
- washcloth or sponge
- clean towel

Steps:

1. Remove the blender from its base.
2. Rinse excess food from the blender.
3. Take apart the blender.

4. Wash each piece with hot, soapy water and rinse.
5. Dry it with a clean towel and reassemble. See *Setting Up the Blender*.
⚠ To reduce the risk of mold, do not reassemble the blender until it's completely dry.
6. Check that the base is clean.
If necessary, wipe down the base with the washcloth or sponge and dry it.
